PROFESSIONAL SUMMARY

Detail-oriented and motivated Undergraduate Software Engineering student with a strong passion for software development and continuous learning. Skilled in problem-solving, teamwork, and delivering high-quality work within deadlines. A dynamic and adaptable individual with the ability to build positive relationships with peers and collaborate effectively in team environments. Committed to applying technical knowledge and developing practical solutions while maintaining a systematic and organized approach to work. Eager to contribute to a competitive and innovative organization, continuously enhance professional skills, and grow as a software engineer.

Technical Skills

Web Development: Proficient in HTML, CSS, PHP (Server-Side Scripting), Node.js, React, and Next.js.

Database Management: Experience with MySQL, MSSQL, SQLite and Firebase.

Software Development Frameworks: Experience with .NET, Laravel, Express.js.

Electronic Platforms: Skilled in Arduino Technology.

Operating Systems: Competent in Windows.

Mobile App Development: Experienced in Android Studio, Flutter.

Data Analytics: Experience with Power BI, Tableau, Azure Databricks

UI/UX & Design Tools: Skilled in Figma, Canva.

MS Office Package: Proficient in MS Word, MS Excel, MS PowerPoint, and MS Access.

PROFESSIONAL WORK EXPERIENCE

QIXCompany / Frontend Developer Intern | 6-Month Internship

Frontend Developer

[QIXcept] | [Malabe]

[2026/January] – [2026/July / Present]

- Developed responsive and user-friendly web interfaces using React.js, JavaScript, TypeScript, and Tailwind CSS.
- Created reusable UI components and implemented responsive designs for web applications.
- Collaborated with the development team to integrate APIs and deliver project requirements.
- Used Git for version control and team collaboration.
- Focused on writing clean, maintainable code and improving application performance and user experience.

PROJECTS

1. Safari Tales by Podi

<https://safari-alesbypodi.com/>

Technologies: React.js, TypeScript, JavaScript, Tailwind CSS, Node.js

- Built responsive web pages with a modern UI.
- Integrated frontend components with backend services.
- Optimized user experience across desktop and mobile devices.
- Maintained clean, scalable, and well-structured code.

2. MD Gunasena

<https://md-gunasena.vercel.app>

Technologies: React.js, TypeScript, JavaScript, Tailwind CSS, Node.js

- Developed responsive and user-friendly interfaces.
- Implemented reusable React components for better maintainability.
- Improved website performance and responsiveness.
- Collaborated with the development team to deliver production-ready features.

3.IoT Based Garbage Management System

- Developed an IoT-enabled solution to monitor waste bin fill levels in real-time using sensor data transmitted to a cloud-based dashboard.
- Implemented an automated alert and scheduling system to optimize waste collection routes and resource utilization.
- Utilized technologies such as Arduino/ESP32, MQTT, for seamless data collection and visualization.

4.Autonomous Robotic Waiter

- Designed and built an autonomous indoor navigation robot for food delivery in café or restaurant environments.
 - Integrated ultrasonic sensors and computer vision for obstacle detection, path planning, and safe operation
- successfully deployed the end-to-end system, resulting in reduced manual labor and improved resource management for the restaurant.

5.Waste Management System - Mobile APP

- Developed a waste management mobile app using Kotlin and Jetpack Compose to track garbage truck locations and monitor bin fill levels using QR detection.
- Added features to analyze data and schedule pickups automatically for better waste collection and management.

6.Food Delivery System

- Built with Spring Boot (Backend)
- HTML/CSS (Frontend),and MySQL (Database), including order tracking and delivery management.

7.Cafe Revenue Management System

- Built a full-stack system to track sales, inventory, and finances.
- Designed a relational database for transactions and analytics.
- Improved reporting accuracy using Node.js, and MySQL.

EDUCATION

National Institute Of Business Management (NIBM), Sri Lanka	(2025-Present)
Higher National Diploma In Software Engineering	
National Institute Of Business Management (NIBM), Sri Lanka	(2023 – 2024)
Diploma In Software Engineering	

SOFT SKILLS

-
- Creative thinking
 - Time management
 - Project management
 - Responsibility & Honesty
 - Fast learning
